CS Student at University of Washington Bothell passionate about programming and cybersecurity.

Education

2020 - Present

Computer Science and Software Engineering: Information Assurance and Cybersecurity (BS), *University of Washington - Bothell*

Technical Experience

Projects

- **Portfolio**: my portfolio shows my projects, intro about me, contact form, and image gallery of my photos that I've taken. I used HTML/CSS and Javascript.

- **Bank**: Made a Bank program using C++. You can create account, sign in, check balance, see account information, deposit, widthdraw, etc.

- **Family Business**: Designed and developed a static responsive website

for a family business using HTML, CSS, and JS.

- **Weather API**: Created a weather app using HTML/CSS and JavaScript to fetch dynamic data to make changes to the content. It displays the location, temperature, condition, and date.

- **Restaurant Order Program**: Made using Java. It takes in an order, calculates the quantity and total price including tax giving out a receipt with an option to download it.

- **Calculator**: Made using Java GUI. It calculates from left to right without order of operations.

- **UWB Hackathon 2021**: Made an alternative of the course catalog of UW, using HTML/CSS, JavaScript/JQuery, and Figma. Group members: Kyle Huang, Bailey Marie, Kyle Huynh, Kyle Fukuda, and Gwen Furiato.

- **FCC Mini HTML/CSS projects**: A collection of my mini projects from freeCodeCamp

- **FCC JavaScript projects**: A collection of my JavaScript projects that include Roman Numeral Conversion, cash register, palindrome, Caesars cipher, and telephone validator from freeCodeCamp.

Certificates

September 2020

- Responsive Web Design (freeCodeCamp)

October 2021

- Excel 2016: Introduction to Formulas and Functions (LinkedIn Learning)

- Excel Essential Training (Office 365/Microsoft 365, LinkedIn Learning)

December 2021

- Learning React.js (LinkedIn Learning)

- JavaScript Algorithms and Data Structures (freeCodeCamp)

Skills

Hard

Java, C++, HTML, CSS, JavaScript, Excel, Git, Linux

Soft

Communication, Flexibility, Collaboration
